POLICY

The employees of Viking Plastics are committed to continuous improvement through development and implementation of systems and measures to; REDUCE, REUSE and RECYCLE, especially as it relates to our significant aspects and pollution prevention in all areas of our business where possible.

Viking's management has made a commitment to:

- Providing the resources necessary to implement and maintain systems as they relate to this policy.
- Complying with applicable legal and other requirements that relate to our environmental aspects and to which we subscribe.
- Establishing goals as they relate to the Significant Aspects and measure their progress during Management Review Meetings.
- Providing this policy and the supportive documentation to all persons working for or on behalf of Viking Plastics. Our environmental policy is also available to our stakeholders and the public if requested as an uncontrolled document.
- Prevent pollution by the use of processes, practices, techniques, materials, products, services or energy to avoid, reduce or control (separately or in combination) the creation, emission or discharge of any type of pollutant or waste, in order to reduce adverse environmental impacts.

Viking's sound environmental practices contribute to our competitive strength, which benefits all internal and external stakeholders along with our local community.

Signed:  Date: 08/08/19
Kelly Goodsel, President/CEO

Objectives:

1. Maintain certification to ISO 14001.
2. Comply with applicable legal and other requirements that relate to our environmental aspects.
3. Strive to become an environmental role model in the community.
4. Maintaining while improving our environmental operating conditions within our facility and those we can control.
